Results: please describe the outcomes of the project (200-400 words)

Positive reactions of participants. Positive reactions of organizers. Attracting the participants to stay in nature, visit historical monuments, learn about history and historical topics and historical forms of life, crafts and products. The event is visited by 100 participants per year on average, and it part of the Nitra Festivities

Success factors: preferably this kind of information should be requested from partners involved in the good practice, please also add your insights. (300-500 words)

The costs of organizing the event are low. No financial costs beyond the normal promotional activities of the Nitra Self-Governing Region and other organizers are required to promote the event. The program has the potential for a long-term existence without the need to draw funds from public sources. The event is non-commercial and does not generate a profit.

The event popularizes and presents a short section of the Cyril and Methodius Route in Nitra and highlights the significance and meaning of this route as a whole. The route runs through the Nitra Self-Governing Region and it allows the tourists and the young generation to discover cultural and historical monuments and historical themes.

It also enriches the program of the Nitra Festivities *Nitra, Dear Nitra* by its attractive format to present the theme of Cyril and Methodius and their heritage in an experiential way.

The organizers of this event combine the useful with the pleasant. The participants have the opportunity to walk through the natural environment on foot or by bicycle, and visit the cultural and historical monuments at the individual stopovers where a guided tour is prepared for them together with an experiential presentation of Cyril and Methodius and the Great Moravian themes, period crafts and life, together with the possibility of trying the production, preparation and use of period jewelry, meals and weapons.

Limiting factors: preferably this kind of information should be requested from partners involved in the good practice, please also add your insights. (300-500 words)

Applicability and upscaling: based on success and limiting factors, and the context can this be applied in a different area? If yes, what are points that need to be taken into consideration? If no, what are the barriers? (300-400 words)
