Total: **€6700**

Granted by:

Various sources

Priority line/Specific objective: if it is related to a specific priority line or objective

Context: please describe the socio-economic context of the project (300-400 words)

Description: please describe the good practice (half a page)

Results: please describe the outcomes of the project (200-400 words)

The number of participating historical companies is growing year by year, and even vendors from the Czech Republic sell their products on the historical market. We are also improving the program and strengthening the interactive opportunities for the visitors to experience period skills. This year the event was held for the sixth time. The festival has changed into a supraregional event with an estimated 2-3 thousand visitors.

Success factors: preferably this kind of information should be requested from partners involved in the good practice, please also add your insights. (300-500 words)

The event is directly focused on the presentation of historical period of Cyril and Methodius, and it is held at places associated with the most important events of Great Moravia. Every year, it expands its scope to include other similar activities (cooperation with schools, which organize their own children's educational workshops in the designated areas...)

The event popularizes and presents a short section of the Cyril and Methodius Route in Nitra and highlights the significance and meaning of this route as a whole. The route runs through the Nitra Self-Governing Region and it allows the tourists and the young generation to discover cultural and historical monuments and historical themes.

Increased attendance of the *Nitra, Dear Nitra* festivities.

Creation of an attractive presentation format for the theme of Cyril and Methodius and their heritage in an experiential way.

Limiting factors: preferably this kind of information should be requested from partners involved in the good practice, please also add your insights. (300-500 words)

Applicability and upscaling: based on success and limiting factors, and the context can this be applied in a different area? If yes, what are points that need to be taken into consideration? If no, what are the barriers? (300-400 words)

Others: please provide pictures, links, references etc. related to the good practice, please make sure that all of the pictures are copyright free or have permission to be used on our website.
