Priority line/Specific objective: if it is related to a specific priority line or objective

Context: please describe the socio-economic context of the project (300-400 words)

Description: please describe the good practice (half a page)

Thanks to the close cooperation between our Museum, the Nitra Self-Governing Region, Nitra Municipality and other expert institutions, the latest scientific and research findings in the field of archeology, history, culture, theology and archiving in Nitra and the Nitra Region are popularized. The project is aimed at creating a historical awareness in the general public, and therefore no admission fees are collected. This is also reflected in the approach of our lecturers who give their lectures for free in most cases.

Results: please describe the outcomes of the project (200-400 words)

Since 2004, the conferences have firmly settled in the minds of domestic and foreign visitors of the Ponitrian Museum in Nitra. They are regularly visited by renowned experts in the field of archeology, history, theology and archiving, and by academics and university teachers who actively bring the latest knowledge from the above scientific disciplines to the public.

Increased historical awareness and visitor count in the cultural monuments and institutions in Nitra

Success factors: preferably this kind of information should be requested from partners involved in the good practice, please also add your insights. (300-500 words)

Limiting factors: preferably this kind of information should be requested from partners involved in the good practice, please also add your insights. (300-500 words)

lack of funding

Applicability and upscaling: based on success and limiting factors, and the context can this be applied in a different area? If yes, what are points that need to be taken into consideration? If no, what are the barriers? (300-400 words)

The project ensures the presentation of cultural heritage, educates the members professional and lay public and boosts the attendance of Ponitrian Museum in Nitra
